PROFESSIONAL SUMMARY

Final-year Computer Science student (CGPA: 8.31) with professional internship experience in frontend development at Vesture Softech Private Limited. Delivered responsive UI components using React.js, JavaScript, HTML5, and CSS3 on live client projects. Also built ML systems achieving 96.2% classification accuracy using ensemble models and CNN. Proficient in Python, Java, REST API integration, and Git. Seeking a software developer role to contribute production-ready solutions from day one.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript (ES6+), HTML5, CSS3, SQL

Frameworks & Libraries: React.js, scikit-learn, NumPy, pandas, TensorFlow/Keras

Tools & Platforms: Git, GitHub, Postman, VS Code, Eclipse, Google Colab, Oracle Cloud Infrastructure (OCI)

Databases: MySQL, Oracle

Core Competencies: REST API Integration, UI Debugging, Data Structures, Algorithms, OOP, Agile Development

INTERNSHIP

Frontend Developer Intern | Vesture Softech Private Limited 2025

- Developed and delivered responsive UI components using React.js, JavaScript, HTML5, and CSS3 on live client projects, directly accelerating team development timelines.
- Integrated backend REST APIs into frontend interfaces and debugged UI issues using Postman and Git, ensuring a flawless, cross-device user experience.
- Maintained design consistency across client deliverables by collaborating within an Agile team and adhering to component-level UI standards.

PROJECTS

Mushroom Classification System | Python · scikit-learn · XGBoost · CNN Apr 2025

- Engineered an ensemble ML pipeline (Random Forest, SVM, XGBoost) benchmarked against CNN; boosted classification accuracy from 87% to 96.2% with precision and recall exceeding 92% across all classes.
- Processed 8,000+ images and tabular attributes; validated using confusion matrix, ROC curves, and feature importance analysis; authored an evaluation report supporting toxicity detection decisions.

Rule-Based Chatbot | JavaScript · HTML5 · CSS3 · DOM API Oct 2025

- Built an event-driven chatbot with JavaScript DOM manipulation and real-time dynamic response rendering; designed a responsive, mobile-first UI with consistent cross-browser rendering across all devices.

Personal Portfolio Website | HTML5 · CSS3 · Responsive Design Dec 2024

- Developed with semantic HTML and modular CSS components; implemented cross-device compatible responsive layout ensuring seamless display on desktop, tablet, and mobile platforms.

EDUCATION

B.E. Computer Science and Engineering Jun 2022 – Aug 2026
Saveetha School of Engineering, Tamil Nadu, India | CGPA: 8.31

Intermediate (Class XII) Jun 2020 – Mar 2022
Sri Chaithanya Junior College, Tirupathi, Andhra Pradesh | 83%

SSC (Class X) Apr 2019 – Mar 2020
MJPAPBCWREIS School, DV. Satram, Andhra Pradesh | 98%

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional — Oracle (Jul 2025)
- Java Programming: Arrays, Strings, OOP — Infosys Springboard (Jan 2025)
- SQL Programming: JOINs, Commands — Great Learning (Feb 2025)

ACHIEVEMENTS & ACTIVITIES

- Solved 70+ algorithmic problems on LeetCode covering arrays, strings, dynamic programming, and graph algorithms, demonstrating consistent problem-solving ability aligned with technical interview standards.
- Maintained a GitHub repository with 4+ version-controlled projects spanning ML pipelines and React/frontend web applications, with documented, structured commit history across all repositories.
